

Lexus LM , 2024

Lexus LM 500h Executive 4WD

Features include power steering, ABS, adaptive cruise control, lane-keeping assist, parking assist, collision mitigation braking system, and anti-theft devices. Additional safety features comprise obstacle detection sensors, airbags for driver/passenger/side/curtain, all-around camera system, blind spot monitoring, downhill assist control, traction control, and automatic high beam headlights.

The interior boasts luxurious leather seats with electric adjustments, heating, and ventilation, a smart key system, keyless entry, three-row seating configuration, rear seat entertainment monitor, and fully reclining flat seats for ultimate comfort. The cabin is enhanced with multi-zone climate control, premium sound system, and advanced multimedia with Apple CarPlay, Android Auto, and memory navigation.

On the exterior, the Lexus LM features adaptive LED headlights, aluminum alloy wheels, a panoramic sunroof, roof rails, and an aerodynamically designed body for an elegant yet dynamic appearance. The suspension system ensures a smooth and comfortable ride.
