

Alfa Romeo Tonale , 2024

Alfa Romeo Tonale Plug-in Hybrid Q4 - 09/2024

Safety and Assistance Systems:

The 2024 Alfa Romeo Tonale Plug-in Hybrid Q4 is equipped with a full suite of advanced safety technologies. These include adaptive cruise control, lane keeping assist, blind spot monitoring, and forward collision warning with automatic emergency braking. These systems ensure a high level of confidence for both urban driving and highway cruising.

Performance and Handling:

This model is powered by a **1.3-liter** turbocharged 4-cylinder MultiAir petrol engine producing **180 horsepower**, paired with a rear-mounted electric motor. Together, they deliver a combined output of 280 horsepower and all-wheel drive through Alfa Romeo's Q4 system. A smooth-shifting 6-speed automatic transmission handles power delivery. The 15.5 kWh battery allows for up to 82 km (WLTP city cycle) of pure electric driving, making it efficient for daily commutes and reducing emissions.

Comfort and Multimedia:

Inside, the Tonale offers an upscale and technologically advanced interior. The driver is greeted by a 12.3-inch fully digital instrument cluster and a 10.25-inch central touchscreen powered by Uconnect 5, supporting wireless Apple CarPlay and Android Auto. Materials throughout the cabin are high-quality, and the layout emphasizes ergonomics and comfort for both front and rear passengers.

Interior and Seats:

The cabin features premium leather seats designed for both comfort and support. With ample legroom in the second row and foldable rear seats, the Tonale is practical for family use or active lifestyles. Ambient lighting and thoughtful details enhance the premium feel inside, while the cabin's quietness is aided by the EV mode at lower speeds.

Exterior:

The Tonale Q4 Plug-in Hybrid stands out with signature Alfa Romeo styling — from the iconic triangular grille to the sharp LED lighting. The body is finished in **Alfa White**, the classic color that highlights the car's bold character. Alloy wheels and sculpted lines complete the modern crossover design, giving it both elegance and a dynamic road presence.

Specifications:

ID: EIA-327

Final Price: 52000.00 EUR
