Audi e-tron , 2021

Audi E-Tron 50 Technik Quattro – 10/2021

General Overview:

Premium all-electric SUV in an elegant **blue exterior** finish, produced in **October 2021**. Combining Audi's refined luxury, advanced driver assistance, and versatile practicality, this E-Tron delivers a smooth and confident driving experience with Quattro all-wheel drive and advanced electric technology.

Performance & Electric Efficiency:

Dual asynchronous electric motors provide a combined **309 hp** and instant torque, ensuring responsive acceleration and stability in all conditions. **Adaptive driving modes** fine-tune steering, suspension, and power delivery for any road scenario. Multiple charging options are supported, including **DC fast charging** up to 80% in approximately 30 minutes.

Interior & Features:

Cabin finished in **leather and synthetic leather upholstery** with **heated and electrically adjustable front seats** (memory for driver), **Audi Virtual Cockpit**, multi-function leather steering wheel, dual-zone automatic climate control, and **three touchscreens** (12.3", 10.1", and 8.6") with navigation, Alexa integration, and Bluetooth audio. Practical touches include 40/20/40 split-folding rear seats, centre armrests front and rear, ambient LED interior lighting, and a power-operated tailgate.

Technology & Safety:

Equipped with **360° parking sensors with rear camera**, lane departure warning with steering assist, collision avoidance assist with pedestrian & cyclist detection, **Audi Pre-Sense** safety system, stability control, ABS, ISOFIX mounts, and multiple airbags. LED headlights and tail lights, rain-sensing wipers, and adaptive high beam ensure optimal visibility.

Specifications:
