## Honda NSX Type S 4WD - 06/2022

**Exterior:** The 2022 Honda NSX Type S combines supercar performance with a sleek, aggressive design. This limited-production model features unique aerodynamics, a wider stance, carbon fiber accents, and lightweight forged wheels. The sculpted body, bold front fascia, and signature LED headlights give it an unmistakable presence on the road.

**Performance and Efficiency:** Powered by a **3.5-liter twin-turbo V6 hybrid system** with three electric motors, the NSX Type S produces an impressive **600 horsepower** and utilizes **SH-AWD (Super-Handling All-Wheel Drive)** for exceptional grip and handling. It accelerates from 0-100 km/h in under 3 seconds, delivering thrilling performance while benefiting from hybrid efficiency in urban conditions.

**Interior and Features:** The cabin blends luxury and sportiness with premium Alcantara, leather, and carbon fiber finishes. Sport seats provide excellent support, and the driver-focused cockpit features a digital display, premium audio system, and intuitive controls.

**Technology and Safety:** Advanced hybrid technology enhances both performance and efficiency. The NSX Type S also includes stability control, performance braking systems, and driver-assist features designed for both spirited driving and everyday usability.

**Rarity:** As a limited-production model of the NSX, the Type S represents the pinnacle of Honda's engineering and design — an exclusive and collectible supercar.
