Honda Fit 1.5 e:HEV Home - 12/2022

General Overview:

The 2022 Honda Fit 1.5 e:HEV Home, finished in elegant **Platinum White Pearl**, is a smart and efficient subcompact hybrid hatchback that offers excellent urban practicality, low running costs, and the latest Honda technology. The “Home” trim emphasizes everyday comfort and convenience, making it a standout choice for eco-conscious city drivers.

Performance and Hybrid Efficiency:

This Fit is powered by Honda’s advanced **1.5-liter petrol engine** combined with an electric motor in a self-charging hybrid system, delivering a total system output of **109 horsepower**. The e:HEV (Hybrid Electric Vehicle) system offers smooth acceleration and excellent fuel efficiency, especially in stop-and-go traffic. The electric motor handles most of the low-speed driving, while the petrol engine assists when extra power is needed or for highway cruising.

Interior and Features:

The cabin of the Fit Home trim is airy and user-friendly, featuring a clean dashboard design and high-quality materials. Standard equipment includes a built-in navigation system, a rearview camera, a digital display cluster, and a multifunction steering wheel. The rear Magic Seats offer excellent flexibility, allowing for various cargo and seating configurations. The seats are upholstered in soft-touch fabric for added comfort.

Technology and Driver Assistance:

Advanced safety features include **adaptive cruise control**, lane keeping assist, collision mitigation braking, and traffic sign recognition. These features are part of the Honda Sensing suite, ensuring a confident and secure driving experience in various conditions. Keyless entry, push-button start, and automatic climate control are also included for daily convenience.

Exterior Design:

The Fit’s modern design is enhanced by its Platinum White Pearl finish, compact proportions, and smooth lines that contribute to its efficiency and refined look. LED headlights and signature taillights add a high-tech touch, while the compact hatchback form offers excellent maneuverability for tight city streets and parking.
