

Lamborghini Huracan , 2024

Lamborghini Huracán Tecnica (LDF) - 07/2024

General Overview:

The 2024 Lamborghini Huracán Tecnica, finished in the striking **Blu Cepheus** (Blue), represents the perfect balance between the track-focused Huracán STO and the more road-oriented EVO models. Designed for both thrilling performance and everyday usability, the Tecnica brings a new level of precision, aerodynamic refinement, and Lamborghini's unmistakable design language.

Performance and Handling:

Under the hood lies a naturally aspirated **5.2-liter V10 engine** delivering an exhilarating **640 horsepower** and **565 Nm** of torque. Power is sent exclusively to the rear wheels via a 7-speed Lamborghini Doppia Frizione (LDF) dual-clutch transmission, offering incredibly fast and responsive gear changes. The Huracán Tecnica accelerates from 0 to 100 km/h in just 3.2 seconds, and the lightweight chassis combined with rear-wheel steering and specially tuned suspension ensures razor-sharp handling both on the track and public roads.

Interior and Features:

The cabin of the Tecnica is a blend of race-bred minimalism and luxurious craftsmanship. Alcantara upholstery, carbon fiber trim elements, and lightweight bucket seats dominate the interior, creating a focused driving environment. The central touchscreen controls infotainment, telemetry functions, and performance settings, while a fully digital instrument cluster keeps the driver connected to the car's dynamic behavior.

Safety and Driver Assistance:

Despite its raw performance character, the Tecnica is equipped with essential safety features such as ABS, electronic stability control, traction control, and multiple airbags. A rearview camera, parking sensors, and Lamborghini's ANIMA drive selector, which adjusts the driving dynamics (STRADA, SPORT, CORSA modes), ensure both safety and adaptability to different driving environments.

Exterior Design:

The Huracán Tecnica's exterior is a masterpiece of aerodynamic efficiency, with a newly sculpted front splitter, redesigned rear diffuser, and a fixed rear wing that enhances downforce without compromising the clean lines of the car. The **Blu Cepheus** finish highlights the aggressive yet elegant body contours, while lightweight

20-inch forged wheels, carbon-ceramic brakes, and signature Y-shaped LED lights complete the car's dramatic and unmistakable look.

Specifications:

ID: RGD-651

Final Price: 360000.00 EUR

Interior Color: Black

Number of Seats: 2

Steering Side: Right

Condition: New

🕒 370 km

🛢️ 5.2 l
