

Lexus NX , 2024

Lexus NX350h Version L - 02/2024

Safety and Assistance Systems:

This hybrid SUV is equipped with advanced safety features including anti-lock braking system (ABS), multiple airbags, and power steering (PS). A digital inner mirror enhances rear visibility, while stability technologies and braking assistance ensure confident driving.

Comfort and Multimedia:

The vehicle features a high-quality multimedia system with TV functionality and built-in navigation. Power windows (PW), automatic air conditioning (AC), and a sunroof (SR) provide a luxurious and comfortable experience for all passengers.

Interior and Seats:

The interior showcases premium leather seating designed for elegance and support. With thoughtful ergonomics and modern finishes, the cabin ensures a relaxing and refined drive every time.

Exterior:

Finished in a unique color (Code 4Y1), the NX350h presents a distinctive and contemporary look. Alloy wheels (AW) complement the sleek design, while the efficient 2500cc hybrid engine offers a strong balance of performance and fuel economy.
