

Lexus NX , 2024

Lexus NX350h Version L - 01/2024

Safety and Assistance Systems:

This premium hybrid SUV is equipped with comprehensive safety features, including an anti-lock braking system (ABS), multiple airbags, power steering (PS), keyless entry, and a rearview camera system. These reliable driver assistance technologies ensure a safe and confident driving experience.

Comfort and Multimedia:

The NX350h offers a modern multimedia system with TV functionality and built-in navigation. Features such as power windows (PW), automatic climate control (AC), and a sunroof (SR) provide a high level of in-car comfort and convenience for both driver and passengers.

Interior and Seats:

The interior is finished in high-quality leather, with ergonomically designed seats that offer maximum comfort for long drives. A user manual and service record are included, reflecting the car's well-maintained condition.

Exterior:

The body is painted in an elegant color (Code: 085), showcasing Lexus's signature style and confident presence. Alloy wheels (AW) add a sporty flair, while the 2500cc hybrid engine ensures smooth and efficient performance on the road.
