

Lexus LX , 2024

Lexus LX600 - 09/2024

Safety and Assistance Systems:

This luxury SUV is equipped with advanced safety technologies, including anti-lock braking system (ABS), multiple airbags, power steering (PS), and a reliable braking system for enhanced control. A built-in navigation system and rearview assistance features support confident driving across various conditions.

Comfort and Multimedia:

The LX600 offers a premium in-car experience with a full multimedia system featuring TV functionality and a built-in navigation unit. Automatic climate control (AC), power windows (PW), and a sunroof (SR) contribute to a high level of comfort for all passengers.

Interior and Seats:

The interior features high-grade leather seats, designed for durability and comfort. The layout is spacious and ergonomically optimized, ideal for long journeys and everyday driving alike. The vehicle also comes with a user's manual, reflecting its well-maintained condition.

Exterior:

Painted in elegant White (Color No. 085), the exterior is both bold and refined. Alloy wheels (AW) add a sporty touch, while the SUV's strong chassis (model 3BA-VJA310W) and powerful 3500cc gasoline engine offer impressive road presence and performance.
