Mercedes-Benz E220d AMG Convertible - 2017 Premium Plus Package

General Overview

The **Mercedes-Benz E220d AMG Convertible** with the Premium Plus Package offers a perfect blend of elegance, performance, and open-top comfort. Originally a UK vehicle and imported to Cyprus in 2020, it has been kept in excellent condition, with no accidents and consistent maintenance (oil every 5,000 km, full service every 10,000 km). The car is fully maintained and requires no investment.

Performance and Driving Experience

Powered by a refined and efficient diesel engine producing **191 horsepower**, the E220d delivers confident acceleration, strong torque, and excellent fuel economy. Dynamic Select driving modes — Comfort, ECO, Sport, Sport+, and Individual — allow the driver to tailor the car's character to any road or preference. The Agility Control suspension with selective damping and a 15mm lowered setup enhances both stability and comfort.

The car is fitted with **almost new 2024 Pirelli P Zero PZ4 MO tyres**, providing exceptional grip and precise handling. The soft-top roof operates smoothly, seals perfectly, and offers outstanding insulation for quiet and comfortable driving.

Technology and Entertainment

The vehicle features the dual 12.3-inch widescreen cockpit, seamlessly integrating the instrument cluster and infotainment system. The **Burmester High-End Surround Sound System** (13 speakers, 590W) delivers premium, immersive audio quality. Additional technology includes a reversing camera, Traffic Sign Assist, cruise control, ISOFIX rear seats, and run-flat tyres for added safety.

Safety and Assistance Systems

Safety highlights include Active Brake Assist, the PRE-SAFE anticipatory protection system, and multiple airbags (front, side, window, kneebag). The AMG Styling Package enhances both visibility and the vehicle's sporty presence on the road.

Exterior and Design

This E-Class Convertible stands out with its 19" AMG 5-twin-spoke alloy wheels in titanium grey with a high-sheen finish. The AMG styling kit and rear boot spoiler add dynamic character, while the **64-colour ambient lighting** elevates the cabin atmosphere. The acoustic soft-top provides improved climate comfort and significantly reduced wind noise, ensuring enjoyable driving with the roof both open and closed.
