

Mercedes G-class , 2021

Mercedes-Benz G-Class G350d Diesel Turbo 4WD - 03/2021

General Overview

The **Mercedes-Benz G350d** embodies the authentic spirit of the **G-Class**, combining legendary off-road strength with refined modern luxury. Finished in **Grey**, this 2021 model maintains the unmistakable boxy design and commanding presence that have made the G-Class an icon for decades. It represents a perfect balance between rugged durability and premium craftsmanship, making it equally suited for urban sophistication or challenging terrain.

Performance and Driving Dynamics

Powered by a **3.0-liter inline-six turbo diesel engine**, the G350d produces **286 horsepower** and **600 Nm of torque**, offering smooth yet forceful acceleration. Paired with the **9G-Tronic automatic transmission** and **4MATIC all-wheel-drive system**, it delivers exceptional traction and stability across any road condition. The combination of diesel efficiency and robust torque ensures effortless long-distance cruising as well as precise off-road control.

Interior and Comfort

Inside, the G350d offers a cabin that harmonizes durability with elegance. The **black leather power seats**, **sunroof**, and **high-quality aluminum trim** provide a sense of sophistication, while the elevated driving position and spacious layout ensure commanding visibility and comfort. Bluetooth connectivity and **Display Audio** with navigation enhance convenience and entertainment, making every journey both engaging and comfortable.

Technology and Safety

This G-Class is equipped with modern safety and assistance features, including **ABS**, **airbags**, and **stability control**, ensuring confidence on any surface. The **parking camera system** and **4WD traction management** contribute to safer maneuvering in tight spaces or rough terrain.
