

Mitsubishi Outlander , 2022

Mitsubishi Outlander PHEV G 4WD - 05/2022

General Overview

This vehicle is a modern crossover with a **plug-in hybrid system**. The **G version** stands out with a high level of equipment and comfort, while maintaining Mitsubishi's signature style. The car is finished in **White Diamond** and combines elegant design with practicality.

Performance and Hybrid Efficiency

The model is powered by a **2.4-liter gasoline engine** paired with two electric motors. The combined system output delivers **248 horsepower** and **450 Nm of torque**, providing confident dynamics and excellent fuel efficiency. The **4WD system** works together with Mitsubishi's **S-AWC technology**, enhancing stability across various road conditions.

Interior and Features

The cabin is designed for **5 seats** and offers a practical yet comfortable atmosphere. The **G version** includes features such as a multimedia system, rear-view camera, **power tailgate**, and high-quality interior materials.

Technology and Safety

The equipment includes advanced driver assistance systems such as **adaptive cruise control**, **forward collision mitigation**, and **lane departure warning**. The **plug-in hybrid system** allows external charging, while the intelligent control system manages the power distribution between the gasoline engine and electric motors.
