

Nissan Note , 2021

Nissan Note e-Power Hybrid - 09/2021

General Overview

The **Nissan Note e-Power Hybrid 2021** combines compact practicality with innovative hybrid technology, offering smooth electric-like performance with the convenience of a petrol engine. This model stands out for its efficiency, comfort, and intelligent features, making it an ideal choice for both city and everyday driving.

Performance and Efficiency

Powered by Nissan's **e-Power hybrid system**, the car uses a **1.2-liter petrol engine** that charges the electric motor rather than directly driving the wheels. This setup delivers the responsive acceleration of a full EV with the range and convenience of a petrol vehicle. The Note offers impressive fuel efficiency, quiet operation, and a refined driving feel perfectly suited to urban environments.

Interior and Features

Inside, the cabin is designed for comfort and connectivity. It comes equipped with **Apple CarPlay, Android Auto**, and **wireless charging**, ensuring seamless smartphone integration. Features such as **keyless start, start/stop system, folding mirrors**, and **parking sensors** enhance convenience. The **rear-view and 360° cameras**, combined with a **blind spot mirror** and **lane assist**, provide full awareness and safety during every drive.

Included Benefits

The price includes **all taxes, full vehicle inspection, free first service, official warranty, registration under the first owner's name in Cyprus, number plates**, and **road tax**. The car also comes with **two keys**.
