Nissan Serena Highway Star V - 10/2022

General Overview:

The 2022 Nissan Serena Highway Star V is a modern and spacious petrol-hybrid minivan, built to accommodate families with comfort, efficiency, and smart technology. Finished in a deep **black** exterior color, this version blends a sleek appearance with practicality, making it ideal for both urban commuting and weekend outings.

Performance and Efficiency:

Powered by a **2.0-liter** petrol engine assisted by Nissan's **S-HYBRID** mild hybrid system, the Serena offers smooth acceleration and enhanced fuel economy. The hybrid system supports the engine during initial acceleration and powers auxiliary functions, helping to reduce overall fuel consumption. The continuously variable transmission (CVT) and front-wheel-drive layout ensure a balanced and quiet ride in a variety of conditions.

Interior and Features:

Inside, the Serena Highway Star V offers generous seating for up to **8 passengers**, with a flat floor and flexible seat configurations. The cabin features sliding doors for easy access, including an electric left-side sliding door for added convenience. A spacious layout, soft-touch materials, climate control, and a touchscreen infotainment system with smartphone connectivity (depending on trim) ensure a comfortable experience for all occupants.

Safety and Assistance Systems:

This Serena comes equipped with key safety technologies, including **anti-lock braking system (ABS)**, multiple airbags, electronic stability control, and **hill-start assist**. Additional driver-assist features such as forward collision warning, lane departure alert, and a rearview camera may be available depending on the specification.

Exterior Design:

The black exterior finish complements the vehicle's sleek and slightly aggressive design. Chrome detailing around the grille and headlights enhances its visual appeal, while large windows provide excellent visibility. The Serena's upright stance and aerodynamic lines underscore its functionality without sacrificing style.
