

Nissan Leaf , 2022

Nissan Leaf XV Selection - 10/2022

General Overview

The **Nissan Leaf XV Selection** is a refined electric hatchback that blends modern design, everyday usability, and sustainable mobility. Produced in **10/2022**, this model is finished in a striking **Blue color**, enhancing its clean and stylish presence. As one of Nissan's flagship EV trims, it provides a perfect balance between advanced technology and practicality.

Performance and Driving Dynamics

Powered by an electric motor delivering **150 horsepower (110 kW)** and **320 Nm of torque**, the Leaf offers smooth, instant acceleration and quiet performance. Driving confidence is supported by features such as **cruise control, lane keep assist, ABS, traction and stability control, automatic high beam, and all-around cameras**. These systems ensure comfort and safety in both city driving and longer journeys.

Interior and Comfort

Inside, the cabin is designed with driver and passenger convenience in mind. Equipment includes **leather seats, Smart Key system, push-button start, power windows, and multifunction steering wheel**. The spacious interior offers ergonomic design and high-quality finishes, creating a comfortable and practical driving environment.

Technology and Safety

The XV Selection comes equipped with a wide range of safety and assistance systems, including **multiple airbags, collision mitigation braking, blind spot monitoring, obstacle detection, anti-skid device, and anti-theft protection**. Additional convenience is provided by **LED headlights, aluminum wheels, climate control, and dashcam**, ensuring a secure and modern driving experience.
