

Porsche Macan , 2024

Porsche Macan T PDK 4WD Sport Chrono Package - 02/2024

General Overview:

The 2024 Porsche Macan T is a performance-focused compact SUV that offers a perfect balance between sporty driving dynamics and everyday versatility. Finished in classic white and featuring black exterior trim accents, the Macan T distinguishes itself from other models in the Macan lineup with a unique combination of design and agility. The "T" in its name stands for "Touring," and this trim is engineered for those who love driving, whether around town or through winding roads.

Performance and Handling:

This Macan T is powered by a **2.0-liter** turbocharged inline-four engine delivering **261 horsepower** and 400 Nm of torque. The engine is mated to Porsche's 7-speed PDK dual-clutch transmission and is complemented by a standard all-wheel-drive system. With the included Sport Chrono Package, the Macan T accelerates from 0 to 100 km/h in just 6.2 seconds and offers a noticeably sharper throttle response, launch control functionality, and multiple driving modes, including a Sport Plus mode for more spirited performance.

Interior and Features:

The interior of the Macan T is both refined and driver-centric. Black leather seats with exclusive Sport-Tex inserts and silver contrast stitching provide a blend of style and comfort. The GT Sport steering wheel is heated and offers excellent grip and ergonomics. Technology includes a 10.9-inch touchscreen display with built-in navigation, wireless Apple CarPlay, voice control, and a digital instrument cluster. Three-zone automatic climate control and 8-way power-adjustable front seats ensure comfort on long drives.

Exterior Design:

The Macan T's sporty character is reflected in its design details, such as 20-inch dark titanium alloy wheels, high-gloss black mirror caps, and window surrounds. SportDesign side blades with the "Macan T" logo and black tailpipes enhance the dynamic stance. The white body color contrasts boldly with these black elements, giving the SUV a distinctive and assertive appearance on the road.

Safety and Assistance Systems:

Standard safety features include adaptive cruise control, lane departure warning, front and rear ParkAssist with visual and acoustic assistance, and a rearview camera. These

technologies help maintain confidence and control, whether navigating tight parking spaces or cruising on the highway.

Specifications:

ID: QTD-898

Final Price: 93000.00 EUR
