

Rolls-Royce Ghost , 2022

Rolls-Royce 2022

Safety Equipment: This Rolls-Royce is equipped with **front and rear curtain airbags, front side airbags, intelligent driver and passenger airbags, and knee airbags for enhanced safety.** It features **ABS (Anti-Lock Braking System), Brake Assist System (BAS), Cornering Brake Control (CBC), and Dynamic Brake Control for improved stopping power. Electronic Stability Control (ESC), Dynamic Stability Control (DSC), and Electronic Traction Control** ensure optimal handling in all conditions. Additional features include **Hill Hold Function, an Electronic Parking Brake, and an immobilizer for security.**

Comfort Equipment: This model features **four-zone climate control, a rear air conditioning system, and a ventilation system with a microfilter.** The front seats are heated, power-adjustable, and include memory settings, while the rear lounge seats (added extra) provide a luxurious seating experience. The **auto-dimming rearview mirror, tilt-adjustable leather-covered steering wheel, and steering wheel-mounted audio controls** enhance driving comfort.

Interior: The **Mono Interior Environment (added extra)** is finished in **Commission Collection - Armagnac leather (added extra),** complemented by **black cloth headlining and carpet foot mats.** The **Central Cool Chamber (added extra)** provides an exclusive cooling compartment. **Picnic tables (added extra)** and an **effortless power liftgate** enhance practicality, while **front and rear cup holders and an integrated compass** add convenience.

Exterior: This Rolls-Royce is finished in a **stunning black exterior color,** featuring **gold-plated Spirit of Ecstasy (added extra), an illuminated grille (added extra), and chrome trim around the side windows.** It is equipped with **19-inch painted alloy wheels, body-colored bumpers, and electrically retractable Spirit of Ecstasy grille ornament.** Additional features include **heated, power-folding door mirrors, laminated side windows, and a heated windscreen washer system.**

Performance: The vehicle features **automatic front and rear suspension leveling, independent front wishbone suspension with a stabilizer bar and air springs, and independent rear multi-link suspension with a stabilizer bar and air springs.** The **responsive suspension system with electronic control and vehicle speed-proportional power steering** ensures a smooth and refined ride.

Technology and Multimedia: The **Lexicon 18-speaker audio system** delivers a high-quality listening experience. It includes a **10.2-inch passenger display (added extra)**, **Bluetooth connectivity**, an **auxiliary input**, a **USB port**, a **DVD navigation system with full map and voice control**, and **Real-Time Traffic Information (RTTI)**. The **rear theatre configuration (added extra)** enhances passenger entertainment.

Driver Assistance Systems: The Rolls-Royce features **adaptive cruise control with speed regulation**, **front and rear parking sensors**, a **rearview camera**, and a **low tire pressure monitoring system with individual readings**. The **Spirit of Ecstasy rotary controller with touch function and script recognition** provides intuitive navigation control.

Lighting: The vehicle is equipped with **Full LED adaptive headlights**, **daytime running lights**, an **LED third brake light with prism technology**, and **high-pressure headlight cleaners** for optimal visibility.
