Subaru Forester , 2023

Subaru Forester 2.0 Touring e-BOXER Hybrid – 08/2023

General Overview

The **Subaru Forester 2.0 Touring Hybrid** represents the perfect balance of advanced technology, rugged capability, and modern comfort. With its **e-BOXER hybrid system**, this SUV delivers the efficiency of electrification while maintaining Subaru's legendary all-weather performance. Finished with a bold and practical design, the Touring trim emphasizes versatility and premium comfort for everyday use and adventure alike.

Performance and Driving Dynamics

Under the hood lies a **2.0-liter petrol engine producing 145 horsepower**, paired with an **electric motor adding 13.6 horsepower**, for a combined system output of around **156 horsepower**. Mated to a **CVT transmission** and Subaru's renowned **Symmetrical AWD**, the Forester ensures stability, smooth acceleration, and confident handling on all terrains. **Hill Descent Control**, **adaptive cruise control**, and **obstacle detection** further enhance safety and driving ease.

Exterior Design

The Touring model carries a strong SUV stance with **adaptive LED headlights**, **front fog lamps**, and stylish **aluminum wheels**. Subtle lines and premium details highlight both its practicality and refined aesthetic, while generous ground clearance reinforces its adventurous spirit.

Interior and Comfort

Inside, the Forester offers a welcoming cabin with **leather-appointed seating**, **power-adjustable and heated seats**, and the **Smart Key system**. Practical features such as climate control, multifunction displays, and excellent ergonomics make the interior both premium and user-friendly.

Technology and Safety

Equipped with Subaru's **EyeSight driver-assist suite**, the Forester includes **collision mitigation braking**, **lane keep assist**, **adaptive cruise control**, and a **rearview camera**.
