Tesla Model 3 Standard Range Plus - 07/2021

Exterior

This Tesla Model 3 Standard Range Plus comes in a striking **Red** finish, giving the electric sedan a bold and modern look. The clean lines, coupe-like silhouette, and **panoramic glass roof** highlight Tesla's aerodynamic design language. LED headlights and ambient lighting enhance its futuristic and premium appeal.

Performance and Driving Dynamics

Powered by a **single electric motor with rear-wheel drive (RWD)**, the Model 3 Standard Range Plus produces around **283 horsepower**, ensuring responsive acceleration and smooth handling. Paired with a long-range battery, it offers efficient performance for both city driving and highway cruising.

Interior and Comfort

Inside, the cabin features Tesla's signature **minimalist design** with a large central touchscreen that controls nearly all vehicle functions. The interior includes **power-operated tailgate, ambient lighting, and comfortable seating for five passengers**, creating a premium driving experience.

Technology and Safety

This model is equipped with **Autopilot**, which provides advanced driver assistance including adaptive cruise control, lane keeping, and collision mitigation. Additional features include a **rear-view camera, side cameras, parking sensors, and smart key access**. Safety is reinforced with multiple airbags, ABS, and traction control, while connectivity is supported by Tesla's advanced infotainment system with navigation and smartphone integration.
