Overview

The Tesla Model 3 60 kWh 06/2025 is a modern all-electric sedan offering advanced Tesla technology, smooth rear-wheel-drive performance, and premium comfort features. %READMORE% Finished in stylish Quicksilver, this one-owner vehicle is equipped with FSD Computer 4, a genuine dashcam system, heated steering wheel, and heated seats, making it an excellent choice for both daily driving and long-distance travel.

Performance and Efficiency

Powered by a 60 kWh battery and rear-wheel drive layout, the Model 3 delivers instant torque and quiet, responsive acceleration. Its efficient electric drivetrain ensures low running costs and smooth city and highway driving performance.

Interior and Technology

The minimalist Tesla interior features a large central touchscreen interface, rear passenger monitor, heated seats, and a heated steering wheel. Advanced connectivity, digital controls, and Tesla's FSD Computer 4 enhance the driving experience with cutting-edge software capabilities.

Safety and Assistance Systems

Equipped with adaptive cruise control, Lane Keep Assist, collision mitigation braking, and multiple sensors, the Model 3 offers strong active safety performance. The integrated dashcam system provides additional security and peace of mind.

Exterior

The Quicksilver exterior color highlights the sleek and aerodynamic silhouette of the Model 3. The panoramic glass roof enhances cabin openness, while 18-inch alloy

wheels complete the clean, modern electric sedan design.
