Toyota Supra RZ 3.0L Turbo - 10/2022

General Overview

The **Toyota Supra RZ** is the top-grade performance coupe in the Supra lineup, combining cutting-edge technology with motorsport-inspired engineering. This 2022 model, finished in Gray, offers an aggressive design with advanced aerodynamics and premium features for both enthusiasts and daily driving.

Performance and Driving Dynamics

Equipped with a **3.0-liter inline-6 turbocharged petrol engine producing 387 horsepower**, the Supra RZ delivers exhilarating acceleration and precision handling. Paired with an advanced automatic transmission (FA8) and rear-wheel drive, it ensures sharp responsiveness and excellent driving stability. The upgraded HKS exhaust system and BLITZ performance suspension tuning enhance its sporty character.

Interior and Comfort

The cabin features half-leather sport seats with electric adjustment and memory function, combined with a driver-focused cockpit layout. A premium **JBL surround audio system**, smart key access, push-button start, and high-quality materials create a balance of comfort and sportiness.

Technology and Safety

This Supra comes with **LED headlights, Blind Spot Monitoring (BSM), navigation system, rearview camera, and adaptive cruise control**. The infotainment system integrates modern connectivity while providing intuitive control through its display and steering-mounted functions.

Exterior

With its bold proportions, sculpted body, carbon rear accents, and 19-inch alloy wheels, the Supra RZ stands out as a true sports icon. The HKS exhaust and aerodynamic enhancements further underline its racing DNA.
