Toyota Hilux 2.4 Z Diesel Turbo - 03/2023

General Overview:

The Toyota Hilux 2.4 Z Diesel Turbo from March 2023 is a tough, reliable pickup truck built to handle both demanding work environments and adventurous off-road driving. Its strong ladder-frame chassis, bold exterior styling, and elevated ride height give it a commanding presence and dependable performance, whether in the city or out in rugged terrain.

Performance and Efficiency:

This Hilux is powered by a **2.4-liter** four-cylinder turbocharged diesel engine producing **150 horsepower** and 400 Nm of torque. It's mated to a 6-speed automatic transmission and features a part-time four-wheel-drive (4WD) system, offering excellent traction and stability across various road conditions. Fuel efficiency is solid for its class, with an average of around 7.4 liters per 100 km, making it both powerful and economical.

Interior and Features:

Inside, the Hilux provides a functional and comfortable cabin with modern conveniences. The infotainment system supports Apple CarPlay and Android Auto, while a rearview camera, automatic climate control, and multifunction steering wheel add to driving comfort. Depending on the configuration, the interior may feature either fabric or leather seats, all designed with durability and ergonomic support in mind.

Safety and Driver Assistance:

The Hilux comes equipped with a full range of active safety features, including ABS (anti-lock braking system), EBD (electronic brake-force distribution), VSC (vehicle stability control), HAC (hill-start assist), and dual front airbags. These technologies work together to provide enhanced safety and control in both everyday driving and more challenging environments.
