Toyota Hilux 2.4 Z Diesel Turbo - 02/2023

General Overview:

The 2023 Toyota Hilux 2.4 Z Diesel Turbo is a robust and versatile pickup truck designed to handle both demanding work environments and adventurous off-road journeys. Its sturdy ladder-frame construction, combined with modern features and a bold exterior design, makes it a reliable choice for various driving conditions.

Performance and Efficiency:

Under the hood, the Hilux is powered by a **2.4-liter** four-cylinder turbocharged diesel engine, delivering **150 horsepower** and 400 Nm of torque. This engine is paired with a 6-speed automatic transmission and a part-time 4WD system, providing excellent traction and stability across different terrains. The vehicle's fuel consumption averages around 7.5 to 8.0 liters per 100 kilometers, making it both powerful and efficient.

Interior and Features:

Inside, the Hilux offers a comfortable and practical cabin equipped with modern amenities. Features include a multimedia system with Apple CarPlay and Android Auto support, a rearview camera, automatic climate control, and a multifunction steering wheel. Depending on the trim level, the interior may feature fabric or leather upholstery, providing a pleasant driving experience.

Safety and Driver Assistance:

The Hilux is equipped with a range of safety features, including anti-lock braking system (ABS), electronic brake-force distribution (EBD), vehicle stability control (VSC), hill-start assist control (HAC), and front airbags for both driver and passenger. These systems ensure a high level of safety and driver confidence under various road and weather conditions.
