Toyota Crown Hybrid 2.5 S - 05/2022

General Overview:

The 2022 Toyota Crown Hybrid 2.5 S, finished in refined Precious White Pearl, is a premium sedan that blends timeless elegance with next-generation hybrid efficiency. As part of Toyota's flagship lineup, this Crown delivers a smooth, luxurious driving experience while incorporating advanced safety and comfort technologies. With sleek proportions and a commanding presence, it's designed for drivers who seek both prestige and practicality.

Performance and Hybrid Efficiency:

Under the hood, the Crown Hybrid is powered by a **2.5-liter** petrol engine paired with an electric motor in a self-charging hybrid system. This combination produces a total of **236 horsepower**, delivering strong low-end torque and smooth acceleration through an electronically controlled CVT (continuously variable transmission). The hybrid system operates efficiently across various driving scenarios, optimizing fuel consumption and reducing emissions without compromising performance.

Interior and Features:

Inside, the Crown offers a well-appointed cabin with high-quality materials and meticulous craftsmanship. The "S" trim provides spacious seating with semi-leather upholstery, a multi-functional steering wheel, and a clear digital instrument panel. A built-in dashcam and rearview camera are included for added security and convenience. Dual-zone automatic climate control, cruise control, and smart key access further enhance the day-to-day driving experience.

Technology and Safety:

The vehicle is equipped with Toyota's suite of safety and driver assistance systems. Key features include adaptive cruise control, lane departure alert, pre-collision system with pedestrian detection, and automatic high beams. These systems work together to promote a safe and stress-free drive. Parking maneuvers are made easier with the rear camera and intuitive visual guidance.

Exterior Design:

The exterior styling is both graceful and bold. The Precious White Pearl paint highlights the flowing lines and sculpted details, while chrome accents and LED lighting emphasize its premium identity. A low, wide stance gives the sedan a planted feel on the road, perfectly matching its refined yet assertive personality.
