

Toyota Mirai , 2021

Toyota Mirai - 09/2021

Exterior:

The **2021 Toyota Mirai** combines futuristic styling with premium elegance, embodying the next generation of hydrogen-powered sedans. The front end features sharp **LED headlights**, a wide grille, and sculpted lines that emphasize its aerodynamic silhouette. The sleek roofline flows into a well-defined rear with LED taillights and **aluminum alloy wheels**, enhancing its road presence. A **sunroof/glass roof** and fully painted exterior details add refinement to its bold design.

Performance and Efficiency:

Powered by a hydrogen fuel cell system, the Mirai generates electricity on board to drive its electric motor with zero emissions. The system offers smooth, quiet acceleration and excellent efficiency, with a range comparable to conventional sedans, refueled in minutes at a hydrogen station. Advanced features such as **skid prevention**, **automatic high beams**, and **all-around cameras** support both safe and confident driving.

Interior and Features:

Inside, the Mirai offers a spacious and luxurious cabin with seating for five passengers. High-quality materials, **leather seats**, and modern design elements create an inviting atmosphere. The driver benefits from **keyless entry**, **smart key**, **power windows**, and **electric seats** with heating for superior comfort. Multi-zone climate control ensures a pleasant environment for all occupants.

Technology and Comfort:

The Mirai is equipped with a **12.3-inch multimedia display** with **Apple CarPlay** and **Android Auto**, a memory-based navigation system, and **CD/DVD/music server**. Entertainment and connectivity are further enhanced by a **1500W power supply**, **dash cam**, and full-segment TV capabilities.

Safety and Assistance:

Safety equipment includes **adaptive cruise control**, **lane keep assist**, **blind spot monitoring with rear traffic alert**, **collision mitigation braking**, and **parking assist**. It also features a full suite of airbags for driver, passenger, sides, and curtains, as well as obstacle sensors, anti-theft devices, and cameras covering the front, side, and rear.
