Toyota Crown Crossover 2.5 G Advanced Leather Package E-Four 4WD - 10/2022

General Overview:

The 2022 Toyota Crown Crossover 2.5 G Advanced Leather Package E-Four is a refined hybrid SUV that seamlessly combines executive-class luxury with fuel-efficient performance. Finished in a distinctive brown exterior color, this crossover stands out with its elevated ride height, coupé-inspired silhouette, and premium details, making it a bold alternative to both traditional sedans and SUVs.

Performance and Hybrid Efficiency:

Under the hood lies a **2.5-liter** inline 4-cylinder petrol engine paired with Toyota's hybrid system and dual electric motors. The total system output reaches **249 horsepower**, delivered through the advanced E-Four (electric AWD) system, which offers excellent traction and stability. An electronic CVT ensures smooth acceleration and high efficiency. Despite its size and power, the Crown Crossover achieves remarkable fuel economy—approximately 4.5 liters per 100 kilometers in mixed WLTC conditions.

Interior and Features:

Inside, the cabin emphasizes sophistication and comfort. Premium semi-aniline leather upholstery, heated and ventilated front seats, and soft-touch surfaces are all part of the Advanced Leather Package. A large 12.3-inch touchscreen infotainment system integrates full-segment TV, CD/DVD playback, Bluetooth, and built-in navigation. The digital instrument cluster, power-adjustable seats, and ambient lighting enhance the upscale feel. A head-up display and digital rearview mirror further elevate the tech experience.

Safety and Driver Assistance:

Toyota Safety Sense is fully equipped in this model, including adaptive cruise control, lane tracing assist, pre-collision system with pedestrian detection, blind spot monitoring (BSM), and rear cross-traffic alert. A 360-degree panoramic view monitor simplifies parking and low-speed maneuvering. Automatic high beams and multiple airbags add another layer of protection.

Exterior Design:

The Crown Crossover features a bold front fascia with a wide grille, LED lighting signature, and coupe-like sloping roofline. The brown metallic bodywork is

complemented by chrome detailing, sleek alloy wheels, and a high waistline. A power tailgate and keyless entry system enhance daily usability, while its crossover proportions provide both visual strength and practicality.

This model bridges the gap between elegance and innovation, setting a new standard for what a luxury hybrid crossover can be.
