

Volvo XC40 , 2024

Volvo XC40 Ultimate B4 AWD - 04/2024

General Overview:

The **2024 Volvo XC40 Ultimate B4 AWD** is a premium compact SUV that masterfully combines Scandinavian sophistication, all-weather capability, and cutting-edge technology. This particular model, presented in **Crystal White Premium Metallic**, offers a clean, modern design and belongs to the top “Ultimate” trim, ensuring a comprehensive list of high-end features.

Performance and Handling:

Under the hood, the XC40 B4 is powered by a **2.0-liter mild-hybrid turbocharged petrol engine** delivering a confident **197 horsepower**. Paired with an **8-speed automatic transmission** and **all-wheel drive (AWD)** system, the XC40 delivers smooth acceleration, efficient performance, and sure-footed handling in all road conditions. The mild-hybrid system enhances fuel economy and supports seamless start-stop functionality.

Interior and Features:

Inside, the XC40 features **genuine leather upholstery** with a premium finish, providing a comfortable and elegant environment. This vehicle is a **non-smoking, one-owner** example, further ensuring interior cleanliness and care. A 9-inch central touchscreen supports Google built-in, Apple CarPlay, Android Auto, and voice control, while the **Harman Kardon premium sound system** fills the cabin with rich audio quality. Heated front seats, a heated steering wheel, dual-zone climate control, and memory functions elevate the everyday driving experience.

Exterior Design:

The **Crystal White Premium Metallic** paint finish is accentuated by sleek body lines, signature Thor’s Hammer LED headlights, and elegant chrome trim. The compact yet muscular SUV stance is complemented by premium alloy wheels and thoughtful aerodynamic touches.

Safety and Assistance Systems:

As expected from Volvo, the XC40 comes equipped with a full suite of safety features, including **Pilot Assist, adaptive cruise control, blind spot monitoring, lane keeping aid, rear cross traffic alert**, and a **360-degree camera system**. These systems provide advanced driver support and peace of mind in various driving conditions.
